

# UPGRADE ORDER FORM ONLY

## THE THRASS INSTITUTE Australasia & Canada

**Note: The resources listed are those for which we already have upgrade packages or replacements available, or in production. The list below will be continuously updated on our website, as new material becomes available.**

**RESOURCE FILE** - The THRASS Resource File (T-01) has been replaced by the THRASS Resource Kit (T-101) - electronic. Due to changes in the various THRASSCHARTS several of the e-copymaster pages in the new kit will be different to the pages in your current hardcopy file. To update your file, simply download 'FREE' replacement copymaster pages and teacher's notes from our website, print these out and place into your file. This way your file remains current at no cost.

**TEACHER'S MANUAL** - New THRASS Teacher's Manual (T-113). Until this resource is completed, existing Teacher's Manual and/or Resource File owners can download 'FREE' upgraded teaching notes, which will be very similar to those that will go into the new edition of the Teacher's Manual. These notes give instructions on how to use the copymaster sections in the Resource File T-01). Resource Kit (T-101) owners will already have these sheets included in their manual.
